Request to Re-hab Historic Finley Bridge

Project Description

- For maintenance, include a concise statement of the type of maintenance activities and the type of grooming equipment used.
- For major bridge rehabilitation, describe the proposed construction items to rehabilitate the bridge.
- For trail rehabilitation, describe the repair and renovation activities necessary to improve the trail for user safety.
- For development, describe development activities and structures to be constructed.
- For development of intensive use areas; describe the need and expected use and method of operating and maintaining the facility.
- For Motorized Stewardship describe project **and source of matching funds**, narrative must include the source of the matching funds.
- Minimum Useful Life Agreement is required to be submitted with the signed grant agreement.

Juneau County is requesting funding to re-hab a 120 ft x 15 ft bridge over the Yellow River. The steel bridge has a wood deck which is approximately 20 years old. Replacing the deck boards will improve safety and provide continued use of this bridge. We are also requesting funding to fix the approaches to the bridge. The east approach is washing out and needs repaired. The west approach was repaired last season in-order to utilize the bridge and should be in good condition.

1. If land is privately owned, how many years will the owner permit the trail to be used as a public snowmobile or all-terrain vehicle trail? (3 year minimum required)
2. What other recreational trail uses are planned for this bridge?
Snowmobile in Winter. Hiking, hunting and nature viewing in all seasons.

If there are other Recreational uses planned, how much of the bridge cost will be paid for by non-snowmobile or non-ATV users?

3. Have you contacted your local DNR water management investigator regarding a regulatory permit? ☐ Yes ☒ No
- Is a permit required? ☐ Yes ☒ No
- Do you have an approved permit? ☐ Yes ☒ No

New Bridge Projects Only

4. Describe the need for the bridge and alternatives considered.

Bridge Rehabilitation Projects Only

5. Briefly describe why the bridge needs to be rehabilitated.
The bridge spans the Yellow River, a significant feature of the landscape in northern Juneau County. The bridge provides a safe trail crossing vs other crossings on town roads. Re-decking the bridge will prolong it's use and improve safety.
6. Has this bridge site ever received development or rehabilitation funds in the past? ☐ Yes ☒ No
- If answer is yes, give year funds were received, amount of grant award and program.
